

GUARDIAN ALARM

BURGLAR · FIRE · MEDICAL MONITORING · CCTV

Venetian Isles Homeowners'

The alarm system currently installed in your home is capable of being monitored using a home phone service. The Venetian Isles Homeowner Association covers this monthly monitoring. The phone services that *typically* work best with the alarm systems in the community are:

- AT&T
- AT&T Uverse
- Comcast
- Vonage

In any instance where there has been a change in phone service providers it is recommend to *call Guardian Alarm and test your alarm system to ensure it has been left in proper working order*. It is further recommended to do this prior to the phone service company leaving the premise. In some cases it may be necessary to have a Guardian Alarm service technician sent to the premise to rewire phones in the home and ensure the alarm is communicating properly.

For those Venetian Isles homeowners that would like their alarm system monitored, but either do not have home phone service or would like a back-up to their phone service in case it is compromised, Guardian Alarm offers the **Guardian Airlink™ 4G Cellular** service at discounted rates, starting as low as \$225* for installation, and \$12* per month.

[Please note that the Venetian Isles Homeowner Association does not cover the additional costs associated with the cellular monitoring service, and homeowner's are billed directly]

If you have any questions on this or other services that Guardian Alarm provides, please feel free to call us at 1-800-STAY-OUT (782-9688) – we are happy to assist you with your security needs.
